## Who are we?

We are a team of Health and Adult Social Care professionals who have different specialist skills. These include nurses, psychiatrists, occupational therapists, social workers, care managers, physiotherapists, speech and language therapists, psychologists

and an art therapist. We also have an Intensive Support Team who can help with complex needs. Our team are supported by administration staff who will answer the phone if you call.

We work with adults who live in Southampton who have learning disabilities.

## What do we do?

If our team is the right one to work with you, we will assess you and if required, your carer's needs. We will assess such things as :

- ❖ How you can enjoy better health
- ❖ What help you need to support you
- ❖ The support you need at home or in the community
- ❖ Keeping safe
- ❖ Finding the right place to live.

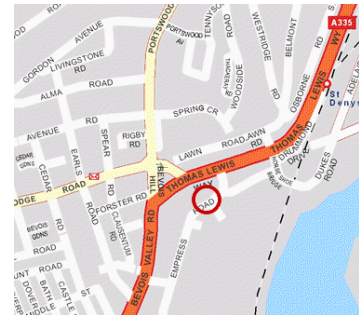

We will then work with you if you need help in these areas of your life.

If you agree, we can also work with other people to help you (for example your family, local doctor, support workers, housing and advocacy).
